Box of rags**

Rag Replacement

MDI Pro-Towels deliver consistent quality and high performance right out of the box. Every time.

You never know what you're going to get with a box of rags. Strength, quality, shape, absorbency and size of rags can vary widely. Then there's always the worry about cleanliness and contaminants. In short, the only thing consistent about rags may be the inconsistency.

Unlike rags, MDI's Pro-Towels are the same each and every time - clean, fresh and consistent in size, shape and performance. Pro-Towel material is produced in an ultra-clean Spunlacing process with stringent manufacturing controls to ensure product consistency and quality. Made from a polyester cellulose blend engineered to deliver strength and absorption, these specialized nonwoven wipers feature fibers

that are hydro-entangled together, using no binders or glues. The result is a strong cloth-like material that is chemically pure and contaminant free. Pro-Towels are low in lint, resistant to most solvents and won't scratch surfaces.

And best of all, Pro-Towels are manufactured extra thick and bulky to increase absorption and extend their useful life. Fewer wipers per task means less waste generated. In fact, a jumbo roll of Pro-Towels can replace a 70 pound box of rags while a tote box replaces 30 pounds or more. That means less space is required for storage AND you get a fresh clean wipe for every application.

What's more, Pro-Towels come packaged

in a variety of sizes so that you can right-size the wipe to the task, reducing waste and costs.

When it comes to performance, versatility, reduced waste and lower cost, Pro-Towels outperform rags every time. Please contact MDI today to receive additional information and request product samples.

Pro-Towel Rag Replacement

Part#	93580	91141	93141	93143	91126
Size	12"x17"	12"x12"	10.5"x15"	12"x21.5"	12"x13"
