

For Soft to Medium Finish

Aqua Marine™

Now you can have it all with the Aqua Marine™ Hair Pad.

The Aqua Marine™ Hair Pad from Treleoni gently glides across the surface while creating the ideal shine on softer to medium finishes. Not just another hair pad, Aqua Marine has the proper lubricity to bring up the shine but not enough aggressiveness to remove the finish.

It's a perfect balance of natural hair fibers and the unique Treleoni blend of polyester fibers for UHS equipment, up to 3000 RPM.

Now you can have it all.

BEST FOR:

Daily Usage on softer to medium finishes with UHS equipment.

PERFORMANCE:

This pad is a complement to the entire Treleoni UHS hair pad line. Simple care and proper use will extend the life of this pad beyond typical hair pads.

Battery, Cord Electric, & Propane
(1000 to 3000 rpm)

SIZES:

13" – 28"

PACKAGING:

5 pads per case

SIZES:

27"/28"

PACKAGING:

Also available—
2 pads per case

What makes ours better?

- The **Unique Treleoni Fiber Blend™** and hair fibers are designed to be soft enough while being tough enough to restore the shine without removing the finish.
- **Because it's gentle on the finish**, a superior gloss can be brought back time after time, before you have to top scrub and recoat or strip the floor completely. While saving you labor dollars.
- **Resilient and open web design** helps to get into the peaks and valleys of the floor for a shiny uniform look, and helps collect any dust or dirt that might be on the floor.
