

WINTER PRODUCTS

Winter can be one of the most demanding seasons, and nothing but the highest-performing products will do the job. Sidewalks and common areas need to be kept free of snow and ice, with an eye on environmental well-being. Vehicle windshields need to be kept ice-free for clear visibility and safety, airport runways and taxiways need to be kept clear, and snow plow blades need to be coated to prevent snow and ice from sticking and rust and corrosion from forming.

From liquid ice melt to calcium and non-calcium pellets to windshield deicer, you can count on **ATHEA**®'s Winter Products to keep you and your grounds safe.

VEHICLE SAFETY AND MAINTENANCE

#385 SNOW PLOW COATING

PREVENTS SNOW AND ICE FROM STICKING

- Leaves a hard, slippery layer of silicone on plow blades, snow thrower chutes, shovels
- Reduces friction for more efficient plowing
- Will not wash-off

#470 WINDSHIELD DEICER CONCENTRATE

EXTREME LOW-TEMPERATURE FORMULA

- Quickly penetrates ice and snow
- Provides better visibility for safer driving
- Cleans windshields in the summer, deices windshields in the winter

#8209 WINDSHIELD DEICER AEROSOL

MELTS SNOW, FROST AND ICE ON CONTACT, FOR LOCKS AND WINDSHIELDS

- Provides better visibility for safer driving
- Quickly penetrates ice and snow on locks and windshields, and prevents reforming

GRANULAR AND PELLET SNOW AND ICE MELT

#600 PELLET DEICER

CALCIUM CHLORIDE PELLETS

- Works immediately to melt ice, frost and snow
- Non-corrosive to concrete
- Effective in temperatures as low as -25 °F
- Generates exothermic heat to power through thick deposits
- Prevents refreezing for up to 12 hours
- These pellets are 36 times faster than rock salt and will melt 46 times their own weight

#1603 GREEN FIRE™

SODIUM AND MAGNESIUM CHLORIDE BLEND WITH GREEN DYE FOR VISIBILITY

- Sodium chloride and magnesium chloride formula works immediately to melt ice, frost and snow
- Green dye shows where product has been applied
- Non-corrosive to concrete when used as directed
- Does not leave a residue on carpets and floors
- Generates exothermic heat to power through thick deposits
- Do not use on exposed aggregate, precast steps or chipped, cracked concrete and brick
- Effective in temperatures as low as 0 °F

LIQUID SNOW AND ICE MELT

#275 LIQUID ICE MELT

GLYCOL-BASED, LEAVES NO RESIDUE, UP TO 4-HOUR PRE-TREAT

- Use as pre-treat to prevent buildup of ice and snow
- Effective in temperatures as low as -60 °F
- Ideal alternative to corrosive deicing pellets
- Leaves no residue

#277 ICE ERASE

POTASSIUM-ACETATE-BASED LIQUID, APPROVED FOR AIRPORT TAXIWAYS AND RUNWAYS, UP TO 12-HOUR PRE-TREAT

- Allows for up to 12 hours pre-treat to prevent ice and snow accumulation
- Effective in temperatures as low as -60 °F
- Ideal alternative to harmful deicing pellets
- Leaves no residue, non-corrosive
- Safe for surrounding grass areas

#286 SNOW AWAY

ACCELERATED MELTING ACTION

- Fast and easy to use
- Lowers operating temperatures of solid ice melt products
- Improves performance and longevity of solid rock salt and sand when applied prior to their use
- For use on parking lots, roadways, sidewalks, or other foot traffic areas
- Effective in temperatures of -10 °F

#288 LIQUID GREEN FIRE™

ICE MELT AND DUST CONTROL PRODUCT

- For use on parking lots, roadways, sidewalks, or other foot traffic areas.
- Effective in temperatures of -60 °F
- In winter use as an accelerator, pre-wetter, or deicer
- In summer use as dust control product
- Aqua green appearance for easy application

CLEANING

#710 SALT RINSE

REMOVES WHITE RESIDUE FROM CARS, EQUIPMENT AND CARPETING

- Cuts through dull, white, chalky residue left by ice melting chemicals
- Dissolves salt residue without harming painted or finished surfaces
- Eliminates discoloring of floors and carpets
