

RAG REPLACEMENT SOLUTIONS

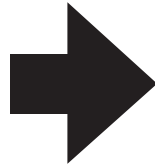

Pro-Series®

Protect Your People and Your
Processes with Reliable
Professional Grade Towels

***ENGINEERED FOR
PERFORMANCE***

What Would You Rather Work With?

#91141
Jumbo ≥ 70 lbs
Roll of rags

#93580
Two ≥ 25 lbs
Pak of rags

Did you know that rental shop towels can contain lead and other heavy metals even after laundering? Have you considered that your employees could be at risk for overexposure to these potentially toxic contaminants?¹ Could your work processes be compromised by the presence of foreign objects or the inconsistent size and material performance you get with rags? PRO-SERIES® PRISTINE® Clean engineered disposable towels are a reliable and

consistent answer to help protect your people and processes from uncertainty.

Our heaviest-duty shop towels are manufactured extra thick and bulky to increase absorption and extend their useful life. Fewer wipers per task means less waste generated. A Jumbo Roll of PRISTINE Clean shop towels can replace a 70 pound box of rags and a Two-Pak™ at least 25 pounds. That means less space required for storage AND you get a fresh clean wipe for every application. When

it comes to performance, versatility, reduced waste and lower cost, PRISTINE Clean outperforms rags every time.

PRISTINE Clean towels come in a variety of sizes and package options so that you can right-size the wipe to the task, control usage and achieve the lowest cost-in-use.

Contact MDI today for more information and product samples.
